**Official Statement on the licensing of Starlink in Papua New Guinea**

In light of references made in traditional and social media over the past six months querying the licensing of Starlink in Papua New Guinea, I confirm that the matter is now subject to a judicial review proceeding before the National Court of Justice at Waigani filed as OS(JR) No. 66 of 2024 – Hon. Timothy Masiu MP & Others v Richard Pagen & Others.

Given the sub judice status of the case, no further comments will be made until the court has handed down its final decision.
