### Request For Proposal (RFP)

# SPECTRUM MONITORING PROJECT CONSTRUCTION OF A 40-METER SELF-SUPPORTING TOWER

NICTA invites experienced and reputable contractors to submit proposals for the construction of a 40-meter self-supporting telecommunications tower.

This infrastructure will support spectrum monitoring operations and enhance telecommunications regulatory capabilities.

#### Eligibility Criteria

Interested bidders must demonstrate:

- Proven experience in constructing telecommunications towers or similar projects.
- Technical expertise and PNG standards compliance.
- The ability to deliver projects within strict timelines and budgets.
- Financial stability and resources to complete the project.
- Ability to seek appropriate clearance from authorities such as physical planning/building board, civil aviation, etc.

#### Instructions to Bidders

The Request for Proposal (RFP) documents, including detailed specifications and submission requirements, are available for download from our website:

- <https://www.nicta.gov.pg/category/tenders-bids/>

#### Proposals must include:

- Technical and financial details.
- A project timeline and milestone plan.
- Evidence of compliance with eligibility criteria.

**Submission Method:** Proposals must be submitted via email ONLY to [supplytender@nicta.gov.pg](mailto:supplytender@nicta.gov.pg)

**Submission Deadline:** 4:30pm on 15th February 2025

NICTA looks forward to collaborating with a dedicated and capable contractor to successfully deliver this critical infrastructure project.
